Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a device having molding units arranged on a structure of carousel that rotates about a first vertical axis, the device having an upper male mold part and lower female mold part, the male mold part having a cylindrical jacket coupled to the structure coaxial to a sliding axis of the female mold part, a sleeve is guided on the jacket and a forming punch is guided in the jacket and comprises a tubular stem, the tubular stem having a lower portion forming a chamber and a plate fixed to the stem having a thickness, the plate having a series of radial holes formed radially in the thickness of the plate, ports provided at the outer surface and connected to the radial holes, a tube inside the stem, the tube forming a cylindrical interspace that is connected to the chamber, a slender tube arranged internally along the tube and connected hermetically to the plate. The closest prior art, Alieri and Beck, fails to provide this feature of the slender tube and radial holes in the plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
